WHAT THESE CODES DO

One image can become an entire campaign.

UPLOAD. TYPE. CREATE.

Upload a picture of your product, book cover, course graphic, or software box. Then type one slash code. ChatGPT uses that code as a creative direction and builds a realistic campaign scene around your offer.

THE IMPORTANT TRUTH

These are creative shorthand codes, not official built in ChatGPT commands.

They work because you teach ChatGPT what to do with the Master Activation Prompt on the next page. Once that instruction is active, the codes become a fast and memorable way to direct your product visuals.

WHAT CAN YOU USE?

PHYSICAL PRODUCT

Use the package or product photo as the visual reference.

BOOK

Upload the cover. ChatGPT can render it as a book, box, stack, or bundle.

COURSE OR MEMBERSHIP

Create a cover graphic first, then place it on a premium 3D software box.

SERVICE OR EVENT

Represent the offer with a branded box, folder, ticket, card, or screen.

MASTER ACTIVATION PROMPT

Use this once at the beginning of the conversation.

PASTE THIS INTO CHATGPT

You are my Product Placement Visualizer. I will upload a product image and type a slash command. Interpret the word after the slash as the scene, placement, or campaign format I want. Create the visual immediately unless a missing detail makes the request impossible. Use my uploaded image as the exact product and brand reference. Preserve the product name, logo, colors, packaging, proportions, and important text as faithfully as possible. If the upload represents a book, course, membership, service, event, or other digital offer, render it as a premium 3D software box, book, device screen, card, or bundle that fits the requested scene. Make every result polished, photorealistic, commercially believable, and ready for advertising. Use realistic lighting, scale, perspective, reflections, materials, and surroundings. Keep the product visually dominant. Do not introduce unrelated brands, fake endorsements, misspelled product names, watermarks, or unnecessary text. If I add words after the slash code, treat them as extra direction. Example: /airportlightbox for business travelers at ATL. Unless I request another size, create a wide 16:9 campaign image.

FAST EXAMPLE

Upload your cover or product image, then type: /timesquare3d

WHY THIS MATTERS

The activation prompt protects your brand and gives ChatGPT a repeatable creative process. Your slash code can stay short because the important quality instructions are already in place.

FOUR SIMPLE STEPS

HOW TO USE THE PLAYBOOK

Create campaign concepts in minutes.

01

CHOOSE ONE OFFER

Start with one product, book, course, membership, event, or service.

02

PREPARE THE VISUAL

Use a clean product image, cover, logo, or premium software box graphic.

03

ACTIVATE THE SYSTEM

Paste the Master Activation Prompt once in the conversation.

04

TYPE A CODE

Enter a slash code by itself, or add one short phrase for extra direction.

UNIVERSAL QUALITY BOOSTER

Add this after any code when you want extra polish: Make the result photorealistic and commercially believable. Preserve the uploaded product exactly. Use premium lighting, realistic scale and perspective, clean composition, crisp branding, and no unrelated text or logos.

TIP: ADD AN AUDIENCE, LOCATION, SEASON, OR MOOD AFTER THE CODE.

4 PROVEN BONUS CODES

The shortcuts that started the idea.

/buildingwrap

Wrap a major building or landmark facade with the complete product campaign.

/mallad

Create an oversized advertisement inside a premium shopping mall environment.

/billboard

Place the product on a realistic outdoor roadside billboard.

/metroadnyc

Turn the campaign into a bold New York City metro advertising takeover.

THE NEXT 50 CODES EXPAND THE SAME IDEA INTO A COMPLETE VISUAL CAMPAIGN SYSTEM.

BIG OUTDOOR + TRANSIT

Take the product out of the feed and put it where thousands of people can see it.

01 **/timesquare3d**

Turns your product into a dramatic 3D anamorphic spectacular in Times Square, complete with scale, city lights, and crowd energy.

02 **/buswrap**

Applies your branding across a full city bus wrap so the product becomes a moving street advertisement.

03 **/trainwrap**

Transforms a subway or commuter train exterior into a bold, coordinated product campaign.

04 **/taxitop**

Places your offer on a realistic taxi rooftop panel with an optional matching door graphic.

05 **/airportlightbox**

Creates a premium backlit advertisement inside a busy airport terminal for a polished global brand look.

/airportlightbox

FROM PRODUCT PHOTO TO AIRPORT CAMPAIGN

The same product becomes a premium backlit advertisement inside a busy international terminal.

TRY THIS

/airportlightbox

/airportlightbox for international travelers in a bright premium terminal

Upload your product image first. The words after the code give ChatGPT extra direction.

BIG OUTDOOR + TRANSIT

Take the product out of the feed and put it where thousands of people can see it.

06

/subwayplatform

Builds a full subway platform takeover using posters, digital panels, and repeated brand moments.

07

/streetfurniture

Places your campaign on bus shelters, sidewalk kiosks, and other high visibility street displays.

08

/rooftopsign

Mounts the product on a giant illuminated rooftop sign against a cinematic city skyline.

09

/stadiumjumbotron

Features the product on a massive arena or stadium screen during a packed live event.

10

/festivaltower

Creates a towering digital product display at an outdoor music, food, or cultural festival.

/festivaltower

FROM PRODUCT PHOTO TO FESTIVAL TAKEOVER

A towering LED installation places the product at the center of a live Caribbean festival experience.

TRY THIS

/festivaltower

/festivaltower at a Caribbean food and music festival during golden hour

Upload your product image first. The words after the code give ChatGPT extra direction.

RETAIL + POINT OF SALE

Show people exactly what your product could look like in stores, shops, and buying environments.

11 /storefrontwindow

Designs a complete retail window display with your product as the visual centerpiece.

12 /popupshop

Turns the product into a branded pop up shop with counters, signage, shelving, and customer flow.

13 /endcapdisplay

Builds a grocery or retail aisle endcap that makes the product look shelf ready and easy to buy.

14 /checkoutdisplay

Places the product in a compact countertop display designed for impulse purchases at checkout.

15 /shelfdisplay

Arranges your product across a premium store shelf with shelf talkers and coordinated brand colors.

/shelfdisplay

FROM PRODUCT PHOTO TO RETAIL SHELF

The four flavors become a clean, organized, shelf-ready retail presentation with real buying context.

TRY THIS

/shelfdisplay

/shelfdisplay in a premium refrigerated grocery section with all four flavors

Upload your product image first. The words after the code give ChatGPT extra direction.

RETAIL + POINT OF SALE

Show people exactly what your product could look like in stores, shops, and buying environments.

16

/vendingmachine

Creates a fully branded vending machine that presents the product as an instant grab and go purchase.

17

/shoppingbag

Applies your design to a premium reusable shopping bag for retail, events, and customer gifting.

18

/giftbox

Builds a polished gift box presentation with tissue, inserts, product pieces, and elevated packaging.

19

/displaycube

Places the product on or inside a glowing acrylic display cube for a modern luxury retail moment.

20

/retailkiosk

Creates a compact branded sales kiosk that could live in a mall, lobby, market, or conference venue.

/retailkiosk

FROM PRODUCT PHOTO TO REAL KIOSK

The brand expands into a commercially believable sales kiosk with signage, menu, service area, and customers.

TRY THIS

/retailkiosk

/retailkiosk in a bright upscale shopping center with customers ordering

Upload your product image first. The words after the code give ChatGPT extra direction.

EVENTS + EXPERIENCES

Turn one visual into a complete live event presence that feels intentional and camera ready.

21 /tradeshowbooth

Designs a complete trade show booth with branded walls, screens, counters, signage, and product displays.

22 /conferencestage

Places your product or offer on a professional keynote stage with large LED screens and theatrical lighting.

23 /stepandrepeat

Creates a branded photo wall that guests, speakers, and influencers can use for event pictures.

24 /registrationdesk

Transforms an ordinary check in desk into a coordinated welcome experience for your brand.

25 /eventbadge

Applies the product identity to a realistic conference badge, lanyard, and matching credentials system.

/eventbadge

FROM PRODUCT PHOTO TO EVENT CREDENTIAL

The brand identity carries into a VIP badge, lanyard, product moment, and coordinated event accessories.

TRY THIS

/eventbadge

/eventbadge as a premium VIP credential flat lay with tropical fruit

Upload your product image first. The words after the code give ChatGPT extra direction.

EVENTS + EXPERIENCES

Turn one visual into a complete live event presence that feels intentional and camera ready.

26

/podiumscreen

Places the campaign on a digital podium display for launches, press events, and presentations.

27

/launchparty

Builds a complete product launch environment with signage, lighting, displays, guests, and celebration energy.

28

/samplingcart

Creates a mobile branded cart for samples, demonstrations, book sales, or lead generation.

29

/photobooth

Designs an interactive branded photo booth with props and a social friendly backdrop.

30

/vipgiftbag

Packages the product into an elevated VIP or influencer gift bag ready for an event reveal.

/vipgiftbag

FROM PRODUCT PHOTO TO VIP GIFT EXPERIENCE

The product becomes a camera-ready influencer gift reveal with branded accessories and tasting cards.

TRY THIS

/vipgiftbag

/vipgiftbag with a branded tote, tasting cards, notebook, straw, and VIP badge

Upload your product image first. The words after the code give ChatGPT extra direction.

DIGITAL + MEDIA CAMPAIGNS

Build the core visuals you need to promote the same product across every major digital channel.

31 **/websitehero**

Creates a polished landing page hero image with the product, headline space, and a strong call to action area.

32 **/socialcarousel**

Turns the product into a coordinated multi slide social carousel with a cover, benefits, proof, and action slide.

33 **/instagramstory**

Builds a vertical Story ad with a large product visual, short hook, and room for a link sticker.

34 **/tiktokshop**

Creates a high energy vertical commerce graphic designed to make the product feel clickable and demonstration ready.

35 **/youtubehero**

Designs a bold YouTube thumbnail or channel feature graphic with clear product focus and readable headline space.

/youtubehero

FROM PRODUCT PHOTO TO CLICKABLE HERO

The product is rebuilt as a high-contrast campaign visual that stays bold and readable at thumbnail size.

TRY THIS

/youtubehero

/youtubehero with all four drinks, tropical fruit, splash energy, and headline space

Upload your product image first. The words after the code give ChatGPT extra direction.

DIGITAL + MEDIA CAMPAIGNS

Build the core visuals you need to promote the same product across every major digital channel.

36 **/emailbanner**

Produces a clean email header graphic for a launch, promotion, announcement, or limited time offer.

37 **/podcastset**

Places the product naturally inside a polished podcast studio as a screen graphic, desk item, or set feature.

38 **/livestreamset**

Builds a branded livestream background with screens, shelves, lighting, and a camera ready host position.

39 **/phonead**

Displays the product inside a realistic smartphone screen for mobile ads, app promotions, and social content.

40 **/laptopmockup**

Places the course, software, website, or digital product on a premium laptop screen in a realistic work setting.

/laptopmockup

FROM PRODUCT PHOTO TO DIGITAL WORKSPACE

The campaign appears across a laptop, phone, and physical product in one polished marketing scene.

TRY THIS

/laptopmockup

/laptopmockup on a premium creative desk with a matching phone ad and product cup

Upload your product image first. The words after the code give ChatGPT extra direction.

PRODUCT + LIFESTYLE SCENES

Make digital offers feel tangible, valuable, giftable, and ready for the real world.

41 /softwarebox

Converts a book, course, membership, toolkit, or service into a premium 3D software box that can be used in other scenes.

42 /bookstack

Turns one cover into a realistic stack of books for launch graphics, bestseller announcements, and speaker promotions.

43 /bundlemockup

Builds a complete offer bundle using software boxes, books, workbooks, devices, bonuses, and resource cards.

44 /unboxing

Creates a realistic unboxing scene with the product being revealed through premium packaging.

45 /deskflatlay

Arranges the product in a clean overhead desk scene with tasteful accessories and strong visual order.

/deskflatlay

FROM PRODUCT PHOTO TO BRAND FLAT LAY

A single product becomes a complete overhead brand story with devices, color swatches, fruit, and flavor cards.

TRY THIS

/deskflatlay

/deskflatlay with brand sheet, phone, notebook, flavor cards, fruit, and color swatches

Upload your product image first. The words after the code give ChatGPT extra direction.

PRODUCT + LIFESTYLE SCENES

Make digital offers feel tangible, valuable, giftable, and ready for the real world.

46

/luxuryshelf

Places the product on an elevated shelf in a boutique, studio, office, or beautiful home environment.

47

/creatorstudio

Integrates the product into an influencer or creator workspace with lights, cameras, monitors, and content tools.

48

/beachactivation

Builds a colorful beachside brand experience using umbrellas, cabanas, carts, and tropical scenery.

49

/hotelroomtv

Places the campaign on an upscale hotel television or welcome screen for hospitality and travel partnerships.

50

/presskit

Creates a media ready press kit with the product, fact sheet, founder card, photos, and branded folder.

/presskit

FROM PRODUCT PHOTO TO MEDIA KIT

The product becomes a professional press package ready for journalists, partners, sponsors, and launch outreach.

TRY THIS

/presskit

/presskit with product photography, fact sheet, flavor cards, media badge, and branded folder

Upload your product image first. The words after the code give ChatGPT extra direction.

YOUR NEXT MOVE

CREATE A CAMPAIGN TONIGHT

One offer. Three scenes. One clear winner.

THE 3 VISUAL CHALLENGE

1

CHOOSE

Pick the product or offer you want people to notice.

2

CREATE

Try three codes from three different categories.

3

COMPARE

Choose the visual that makes the offer feel most valuable.

THINK BIGGER THAN A POST.

Your product can live on a stage, in a store, across a city, inside a premium experience, or on every screen your audience touches. These codes help you see the campaign before you spend the money to build it.
