

CHATGPT PROMPT SHORTCUTS

25 ways to get a better answer from ChatGPT

Short prefixes that make your next prompt clearer, sharper, and more useful.

Original idea by @maverickgpt

Expanded and shared by Stefanie Zucker

Put the shortcut first, then add the request you want ChatGPT to handle.

01 /human

Rewrite this so it sounds natural and human, without changing the meaning.

Then add your request.

02 EL10

Explain this like I'm 10 years old. Use a simple example.

Then add your request.

03 X10THINK

Think through the tradeoffs before answering. State your reasoning, then recommend the best option.

Then add your request.

04 KILLCRITIC

Challenge my premise. Tell me what I'm missing, where this could fail, and what you'd do instead.

Then add your request.

05 3 ALTS

Give me 3 genuinely different versions, each with a distinct angle.

Then add your request.

Put the shortcut first, then add the request you want ChatGPT to handle.

06 TL ; DR

Give me the shortest useful answer first, then the detail.

Then add your request.

07 NO FLUFF

Be direct. Cut filler, caveats, and repeated points.

Then add your request.

08 STEP BY STEP

Turn this into numbered actions I can follow today.

Then add your request.

09 CHECKLIST

Convert this into a practical checklist I can tick off.

Then add your request.

10 TABLE

Put the answer in a clean comparison table.

Then add your request.

Put the shortcut first, then add the request you want ChatGPT to handle.

11 **EXAMPLES 3**

Give me 3 concrete examples, from simplest to strongest.

Then add your request.

12 **ROLE**

Act as a domain expert. First tell me the assumptions you're using.

Then add your request.

13 **TONE**

Keep the meaning, but rewrite in the tone I specify.

Then add your request.

14 **AUDIENCE**

Adapt this for the audience I specify, including what they already know.

Then add your request.

15 **FORMAT**

Return the answer in exactly the format I specify.

Then add your request.

Put the shortcut first, then add the request you want ChatGPT to handle.

16 **RED TEAM**

Try to break this plan. Find the biggest risks, blind spots, and failure points.

Then add your request.

17 **DEVIL'S ADVOCATE**

Make the strongest case against this idea before you make the case for it.

Then add your request.

18 **ASSUMPTIONS**

List every assumption you're making before you answer.

Then add your request.

19 **RISKS**

Rank the 5 biggest risks from most likely to least likely, with a mitigation for each.

Then add your request.

20 **80/20**

What are the few actions that will create most of the result?

Then add your request.

Put the shortcut first, then add the request you want ChatGPT to handle.

21

PRIORITIZE

Rank these options by impact, effort, and urgency. Explain the ranking.

Then add your request.

22

DECISION TREE

Turn this choice into a simple if/then decision tree.

Then add your request.

23

7-DAY PLAN

Build a realistic 7-day plan with one clear outcome per day.

Then add your request.

24

ONE NEXT STEP

Give me the single highest-leverage thing to do next and why.

Then add your request.

25

REWRITE

Keep the facts and intent, but make this clearer, tighter, and easier to act on.

Then add your request.
